

COILER

Roblon C830

Roblon C830 coiler

For production of Ø8-30 mm rope coils

Constant winding tension

Constant coiling speed

Key features

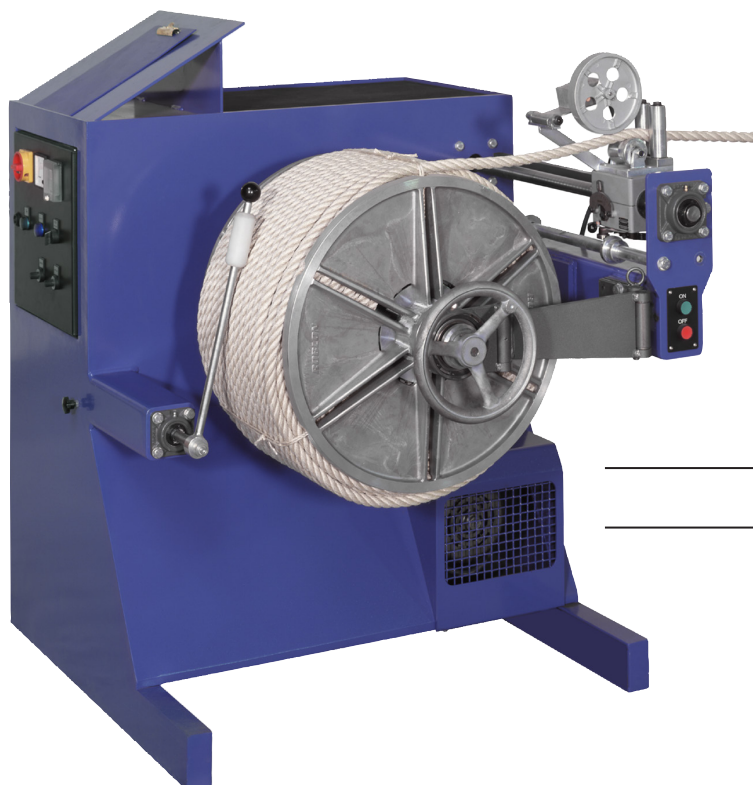

- High-quality coils
- Highly reliable
- Easy to maintain
- Simple, robust design
- Automatic stop at preset length

Standard equipment

- Inverter drive
- Length counter for automatic stop at preset length
- Diameter compensation arm ensuring constant winding tension and coiling speed
- Linear traverse drive unit
adjustable guide rollers
8-30 mm pitch selection
freely movable lever

Optional equipment

- Pay-off unit with 'dancing arm' control for recoiling from steel flange reels
- Customized coiling heads
- Coiling on plastic reels
- Coiling on cardboard reels
- Coiling on plywood reels
- Coiling on customer's own reels

Ø8-30 mm coiling machine

COLLER

Roblon C830

Technical data

Rope range:	Ø8-30 mm
Coiling speed:	Max. 65 m/min.
Winding tension:	Max. 250N
Take-up, coiling head:	Ø670 mm, adjustable traverse max. 400 mm, barrel Ø210
Take-up, max. weight:	Polypropylene 70 kg
Motor:	1.5 kW AC motor with inverter drive
Voltage:	As required

Machine dimensions

Length	Width	Height	Weight
1.0 m	1.2 m	1.5 m	600 kg
