

W I N D E R

Roblon WTU712MD

Roblon WTU712MD heavy-duty take-up winder

For precision winding of extruded tape

High-quality packages of up to 115 kg

Innovative technology

Constant winding tension

Key features

- Excellent package quality
- Easy lay change
- Highly reliable
- Compact, simple, robust design
- Cutting-edge technology
- Easy to maintain

Standard equipment

- Yarn break detection system
- Inverter drive
- Dancer system

Roblon WTU712MD

Optional equipment

- Customized take-up spindles
- Traverse lengths from 300 mm to 700 mm
- Lifting and transport equipment
- Customized voltage

Technical data

Take-up:	Max. Ø700 x 500 mm
Take-up, max. weight:	Polypropylene 115 kg
Yarn:	10,000 - 150,000 dtex
Yarn speed range:	80 - 300 m/min
Winding tension:	500 -10,000 cN
Take-up spindle:	Ø96 mm, mechanical, collapsible tube spindle (standard)
Motor:	1.1 kW AC motor with inverter drive
Voltage:	3 x 380-480 V, 50/60 Hz
